25X1 1. The NEUBRANDENBURG (W 54/U 66) airfield has been under recon-
25X1 struction since June 1949. the
work is scheduled to be completed within 95 days (by 1 September
1949). RR cars loaded with building material, mostly broken
stones, cement, limestone, and mortar arrive daily at the
NEUBRANDENBURG RR freight station. The material is hauled
by private trucks to the airfield.

The field is strictly guarded. A guard detail of about 150
Soviet Air Force soldiers is stationed at the Village of
TROLLSPAGEN.

25X1 Comments Report confirms previous information on con-
struction work at the NEUBRANDENBURG airfield. According to
a previous report, the landing field is allegedly expanded
and asphalt taxiways are being built. The report confirms
1 September 1949 as the target date for the completion of
the construction work, while another report gives 15 Sep-
tember 1949.
